

MINUTES
Shady Grove Elementary PTA
General Membership Meeting
October 18, 2012

The October PTA General Membership Meeting was held in conjunction with our **STEM (Science, Technology, Engineering and Math) Night**. The evening showcased the excellent 21st century education taking place at Shady Grove and informed parents about how they can get involved. Hands-on activities, demonstrations and displays were found throughout the school. Door prizes were handed out in the gymnasium at the meeting.

PTA business discussed included the following:

*Thanks to PTA members for their support. The PTA has purchased 8 of the 18 Promethean boards currently in the school, and we are looking to continue to support the purchase of boards for the remaining 13 rooms that do not currently have the technology.

*Revised PTA by-laws will be posted on the PTA website on Monday, October 22nd for 30-day member review. A vote will be called for in November to approve the revised bylaws.

Respectfully submitted,
Stacey McKenna, Secretary
